

# CC4C:

## Care Coordination for Children

Care Coordination for Children (CC4C) is a Medicaid care management program that serves children from birth to 5 years of age. The main goals of the program are to improve health outcomes and provide support & resources for children & their families.

# CC4C Services

- ▣ Services provided by CC4C care managers are tailored to patient needs. A comprehensive health assessment assists the care manager in identifying a child's needs, plan of care and frequency of contacts required. Contacts occur in medical homes, hospitals, in the community and in children's homes.

# Referral criteria

- Children with Special Health Care Needs (chronic physical, developmental, behavioral or emotional conditions) who require health and related services of a type and amount beyond that required by children generally.
- Children exposed to severe stress in early childhood, including:
  - Extreme poverty in conjunction with continuous family chaos
  - Recurrent physical or emotional abuse
  - Chronic neglect
  - Severe and enduring maternal depression
  - Persistent parental substance abuse
  - Repeated exposure to violence in the community or within the family
- Children in foster care who need to be linked to a Medical Home
- Children in NICU needing help transitioning to community/Medical Home care.
- Children with “potentially preventable” hospital costs
