

2019 Madison County e-CHIP

[Madison County Health Department website](#)

[2018 Madison CHA Video](#)

The 2018 Community Health Assessment priority areas are:

- **Physical Activity and Nutrition**
- **Substance Use and Mental Health**

The following CHIP Scorecard was created and submitted September 9, 2019 in order to meet the requirements for the Madison County Long and/or Short Term Community Health Improvement Plans.

Clear Impact Scorecard™ is a strategy and performance management software that is accessible through a web browser and designed to support collaboration both inside and outside organizations. WNC Healthy Impact is using Clear Impact Scorecard™ to support the development of electronic CHIPs, SOTCH Reports and Hospital Implementation Strategy scorecards in communities across the region.

Scorecard helps communities organize their community health improvement efforts:

- Develop and communicate shared vision
- Define clear measures of progress
- Share data internally or with partners
- Simplify the way you collect, monitor and report data on your results

The following resources were used/reviewed in order to complete the CHIP:

- [WNC Healthy Impact](#)
- [WNC Healthy Impact Data Workbook](#)
- [NC DHHS County Health Data Book](#)
- [NC DHHS/ DPH CHA Data Tools](#)

The **Madison County Health Department** is dedicated to the purpose of disease prevention and health promotion for all Madison County residents.

The **Madison Community Health Consortium** is a partnership that seeks to improve the overall health of Madison County citizens by networking with community agencies and groups in the on-going process of needs assessment, project development, implementation and evaluation.
