

Hepatitis C – Screening and Treatment

Hepatitis C
Get Tested
Get Treated
Get Cured!

- Hepatitis C is a virus
- It is only transmitted through blood
- It is almost 100% curable
- The Center for Disease Control and Prevention (CDC) recommends that all adults 18 years of age or older be screened for Hepatitis C at least once in their lifetime
- Individuals with a higher risk lifestyle are encouraged to be screened annually

Madison County Health Department offers:

Testing

- Low cost, no appointment necessary Hepatitis C screening regardless of insurance
- No provider appointment is needed

Treatment

- A Bridge Counselor, Rachel, to help you navigate from testing to cure.
- Our provider(s) will choose the best medication for you based on a lab work
- Our staff will help you get your medication at little to no cost regardless of insurance
