

Improving the Health of Madison County

2022 State of the County Health Report

What is the State of the County Health (SOTCH) Report?

- The SOTCH provides an update on the progress made addressing our health priorities
- It highlights new & emerging initiatives

Our Health Priorities

Our county's community health priorities are:

- Healthy Eating/ Healthy Weight and Diabetes
- Substance Use and Mental Health

What Actions Are We Taking?

The strategies and initiatives we're undertaking to address our health priorities include:

- Walk with Ease, free program focused on increasing physical activity
- Cooking classes to encourage families to cook and eat meals together
- Diabetes educational videos
- Expanded medication for opioid use disorder treatment services at the health department
- Teen intervene to help middle and high school students who have experienced mild to moderate substance use

So Far, We've Accomplished...

- Offered Dining with Diabetes classes at senior nutrition sites
- Created and disseminated the Madison County Resource Guide with a focus on social determinants of health
- Established community food pantries at the health department and local libraries
- Hired additional provider to expand medication for opioid use disorder treatment services at the health department
- Obtained two grants to support medication for opioid use disorder treatment program
- Hired youth coordinator to oversee Teen Intervene program with cooperative involvement from parents and Madison County Schools
